Mostarya's Maid Café

1. Introduction

- Mostarya's Maid Café will be a cute and visually pleasing website with 5 main pages: Menu, About, Reservations, Careers, and Contact.

2. User Interface Design and Prototype

The menu will display sample images of the items that guests can order. Maid cafes are full of cute and entertaining visuals (1,2).

Meals

Omelet
$10

On the About page, a modal button will be present to read the café's rules. This is to keep the page clean while providing a separate and easy to access point to read important information.

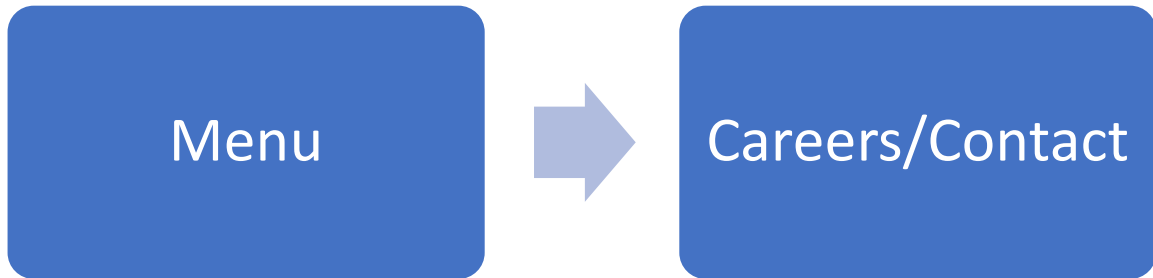

3. Navigation Structure

In general, there will be a navigation bar in the top jumbotron and site footer.

The flow for a typical user wanting to view the menu would be:

For a user looking to apply for work or to contact the café would be to use the navigation bar or site footer links:

Menu ➡ Careers/Contact
